Proxy Statement

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the "Board of Directors" or the "Board") of The Ensign Group, Inc., a Delaware corporation, for use at the annual meeting of stockholders to be held at the Company's Southland Care Center and Home facility, located at 11701 Studebaker Road, Norwalk, California at 10:00 a.m. PDT, on Friday, June 6, 2008 (the "Annual Meeting"). When used in this Proxy Statement, the terms "we," "us," "our," or the "Company" refer to The Ensign Group, Inc. and its subsidiaries; however, The Ensign Group, Inc. is a holding company and each of the facilities and operations referenced herein is operated by a separate, wholly-owned independent operating subsidiary that has its own management, employees and assets. The use of "we," "us," "our" and similar words in this Proxy Statement is not meant to imply that any or all of these facilities are operated by the same entity.

THIS PROXY STATEMENT, THE NOTICE OF ANNUAL MEETING OF STOCKHOLDERS AND FORM OF PROXY ARE FIRST BEING MAILED TO STOCKHOLDERS ON OR ABOUT MAY 6, 2008.

At the Annual Meeting, the stockholders of the Company will be asked to vote on two proposals. Proposal 1 is the election of two Class I directors to serve on our Board of Directors and Proposal 2 is to ratify the selection of Deloitte & Touche LLP as the independent registered public accounting firm for the Company for the year ending December 31, 2008.

A proxy for use at the Annual Meeting is enclosed. Any stockholder who executes and delivers such proxy has the right to revoke it any time before it is exercised by delivering to the Secretary of the Company an instrument revoking it or a duly executed proxy bearing a later date, or by attending the Annual Meeting and voting in person. Subject to revocation, the proxy holders will vote all shares represented by a properly executed proxy received in time for the Annual Meeting in accordance with the instructions on the proxy. If no instruction is specified with respect to a matter to be acted upon, the shares represented by the proxy will be voted **FOR** the proposal in accordance with the recommendation of the Board of Directors.

The expenses of preparing, assembling, printing and mailing this Proxy Statement and the materials used in the solicitation of proxies will be borne by the Company. Proxies will be solicited through the mail and may be solicited by our officers, directors and employees in person or by telephone. They will not receive additional compensation for this effort. We do not anticipate paying any compensation to any other party for the solicitation of proxies, but may reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation material to beneficial owners.

Record Date and Quorum Requirements

April 21, 2008 has been fixed as the record date (the "Record Date") for the determination of stockholders entitled to notice of and to vote at the Annual Meeting. As of the Record Date, 20,537,280 shares of the Company's common stock, par value \$0.001 per share (the "Common Stock"), were issued and outstanding. Each outstanding share of Common Stock will be entitled to one vote. The Common Stock will vote as a single class with respect to all matters submitted to a vote of the stockholders at the Annual Meeting.

The holders of a majority of the voting power of the stock entitled to vote at a meeting of the stockholders, present in person or represented by proxy, shall constitute a quorum for the transaction of business at the Annual Meeting and at any adjournment or postponement thereof. Directors will be elected by a favorable vote of a plurality of the shares of Common Stock present and entitled to vote, in person or by proxy, at the Annual Meeting. Ratification of Deloitte & Touche LLP as our independent registered public accounting firm will require the affirmative vote of a majority of the total number of votes of outstanding shares of Common Stock present in person or represented by proxy at the Annual Meeting and entitled to vote. Abstentions and broker non-votes as to the election of directors will not affect the election of the candidates receiving the plurality of votes. A "broker non-vote" occurs when a bank, broker or other holder of record holding shares for a beneficial owner does not vote on a particular proposal because that holder does not have discretionary voting power for that particular item and has not

received instructions from the beneficial owner. In determining whether Proposal 2 has received the requisite number of affirmative votes, abstentions will be counted as shares entitled to vote and will have the same effect as votes against such proposal. Broker non-votes, however, will be treated as not entitled to vote for purposes of determining approval of Proposal 2 and will not be counted as votes for or against Proposal 2. Unless instructed to the contrary, the shares represented by proxies will be voted **FOR** the election of the nominees. Properly executed, unrevoked proxies will be voted **FOR** Proposal 2 unless a vote against such proposal or abstention is specifically indicated in the proxy.

PROPOSAL 1: ELECTION OF TWO DIRECTORS

General

Our amended and restated certificate of incorporation provides for a classified Board of Directors consisting of three classes of directors, each serving staggered three-year terms and each class as nearly equal in number as possible as determined by our Board of Directors. As a result, a portion of our Board of Directors will be elected each year. Mr. Roy E. Christensen has been serving as the sole Class I director, and his term expires at the Annual Meeting. Messrs. Charles M. Blalack and Christopher R. Christensen have been designated Class II directors, and their terms expire at the annual meeting of the stockholders to be held following the 2008 fiscal year. Dr. Antoinette Hubenette and Mr. Thomas A. Maloof have been designated Class III directors, and their terms expire at the annual meeting of the stockholders to be held following the 2009 fiscal year.

On the recommendation of the nomination and corporate governance committee, our Board of Directors, including its independent directors, selected and approved Roy E. Christensen as nominee for election as a Class I director, the class being elected at the Annual Meeting, to serve for a term of three years, expiring at the annual meeting of the stockholders to be held following the 2010 fiscal year or until his successor is duly elected and qualified or until his earlier resignation or removal.

Our Board of Directors has authorized an increase in the number of directors from five persons to six persons, creating an additional vacancy to be filled at the Annual Meeting. The newly-created director position has been designated as a Class I directorship with a term expiring at the annual meeting following the 2010 fiscal year. On the recommendation of the nomination and corporate governance committee, our Board of Directors, including its independent directors, approved Mr. John G. Nackel as the nominee for election to fill the new Class I directorship at the Annual Meeting to serve for a term of three years, expiring at the annual meeting of the stockholders to be held following the 2010 fiscal year or until his successor is duly elected and qualified or until his earlier resignation or removal.

If these nominees are elected, our Board of Directors will consist of six persons.

Mr. Roy E. Christensen currently serves a member of our Board of Directors and has agreed to serve if elected. Mr. John G. Nackel is not currently a member of our Board of Directors but has agreed to serve if elected. Management has no reason to believe that either of the nominees will be unavailable to serve. However, Mr. Roy E. Christensen has indicated that he is contemplating retirement, and that he may retire at some point during the three-year term, if elected. In the event either of the nominees named herein is unable to serve or declines to serve at the time of the Annual Meeting, the persons named in the enclosed proxy will exercise discretionary authority to vote for a substitute. Unless otherwise instructed, the proxy holders will vote the proxies received by them **FOR** the nominees.

The following table and biographical information sets forth certain information with respect to the nominees for election as well as the continuing directors whose terms expire at the annual meeting of stockholders in 2009 and 2010. The ages of the individuals are provided as of March 31, 2008.

He is currently serving as a director of PC Mall, Inc., a direct marketing company, and Farmer Brothers Co., a manufacturer and distributor of coffee and spices, both of which are listed on the NASDAQ Global Market.

Affirmative Determinations Regarding Director and Nominee Independence

Our Board of Directors has determined each of the following directors and nominees to be an "independent director" as such term is defined in Marketplace Rule 4200(a)(15) of the National Association of Securities Dealers (the "NASD"): Dr. Antoinette T. Hubenette and Messrs. Charles M. Blalack, Thomas A. Maloof, and John G. Nackel.

In this Proxy Statement, the aforementioned directors and nominee are referred to individually as an "Independent Director" and collectively as the "Independent Directors." The Independent Directors intend to meet in executive sessions at which only Independent Directors will be present in conjunction with each regularly scheduled meeting of the Board of Directors.

Meetings and Committees of the Board of Directors

During the year ended December 31, 2007, our Board of Directors met 11 times and all Board members attended at least 75 percent of the meetings of our Board and the meetings of any of our Board committees on which they served. Our Board of Directors and its committees also acted by way of various unanimous written consents during the year ended December 31, 2007.

Although we do not have a formal policy regarding attendance by members of our Board of Directors at our Annual Meeting of Stockholders, we encourage our directors to attend. At the 2007 Annual Meeting, two members of the Board of Directors were in attendance and we expect that at least a majority of our Board of Directors will attend the Annual Meeting.

Our Board of Directors has an audit committee, a compensation committee, a nomination and corporate governance committee and a quality assurance and compliance committee. Each committee has a written charter. Copies of the charters for the audit committee, the compensation committee and the nomination and corporate governance committee are posted on our web site at <http://www.ensigngroup.net> under the Investor Relations section.

Compensation Committee. Our compensation committee currently consists of Messrs. Thomas A. Maloof and Charles M. Blalack and Dr. Antoinette T. Hubenette. Mr. Blalack serves as chairman of the compensation committee. All members of the compensation committee are independent directors, as defined in the NASDAQ Stock Market listing standards. Our compensation committee held four meetings in 2007. The primary functions of this committee include:

- developing and reviewing policies relating to compensation and benefits;
- determining or recommending to our Board of Directors the cash and non-cash compensation of our executive officers;
- evaluating the performance of our executive officers and overseeing management succession planning;
- administering or making recommendations to our Board of Directors with respect to the administration of our equity-based and other incentive compensation plans; and
- overseeing the preparation of the Compensation Discussion and Analysis and the related Compensation Committee Report for inclusion in our annual proxy statement.

Audit Committee. Our audit committee consists of Mr. Thomas A. Maloof and Dr. Antoinette T. Hubenette. Mr. Maloof serves as chairman of the audit committee. Mr. Maloof and Dr. Hubenette are independent directors, as defined in the NASDAQ Stock Market listing standards and Rule 10A-3 of the Securities Exchange Act of 1934, as amended. The audit committee will consist of three independent directors within 12 months after the consummation of our initial public offering. Our audit committee held 15 meetings in 2007. Each member of our audit committee can read and has an understanding of fundamental financial statements. Our Board of Directors has determined that Mr. Maloof qualifies as an “audit committee financial expert” as that term is defined in the rules and regulations established by the Securities and Exchange Commission. This designation is a disclosure requirement of the Securities and Exchange Commission related to Mr. Maloof’s experience and understanding with respect to certain accounting and auditing matters. The designation does not impose on Mr. Maloof any duties, obligations or liability that are greater than those generally imposed on him as a member of our audit committee and our board of directors, and his designation as an audit committee financial expert pursuant to this Securities and Exchange Commission requirement does not affect the duties, obligations or liability of any other member of our audit committee or board of directors. The primary functions of this committee include overseeing:

- the conduct of our financial reporting process and the integrity of our financial statements and other financial information provided by us to the public or any governmental or regulatory body;
- the functioning of our internal controls;
- procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting controls or auditing matters, and for the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters;
- the approval of our transactions with related persons;
- pre-approving all audit and permissible non-audit services to be performed by our independent accountants, if any, and the fees to be paid in connection therewith;
- the engagement, replacement, compensation, qualifications, independence and performance of our independent auditors, and the conduct of the annual independent audit of our financial statements; and
- the portions of our code of ethics and business conduct that relate to the integrity of our financial reports.

Both representatives of our independent registered public accounting firm and internal financial personnel regularly meet privately with the audit committee and have unrestricted access to this committee.

Nomination and Corporate Governance Committee. Our nomination and corporate governance committee consists of Messrs. Thomas A. Maloof and Charles M. Blalack and Dr. Antoinette T. Hubenette. Charles M. Blalack serves as the chairman of the nomination and corporate governance committee. All members of the nomination and corporate governance committee are independent directors, as defined in the NASDAQ Stock Market listing

standards. Our nomination and corporate governance committee held one meeting in 2007. The primary functions of this committee include:

- assisting the Board of Directors in establishing the minimum qualifications for a director nominee, including the qualities and skills that members of our Board are expected to possess;
- identifying and evaluating individuals qualified to become members of our Board, consistent with criteria approved by our Board and our nomination and corporate governance committee;
- selecting, or recommending that our Board selects, the director nominees for election at the next annual meeting of stockholders, or to fill vacancies on our Board occurring between annual meetings of stockholders;
- management succession planning; and
- developing, recommending to our Board, and assessing corporate governance policies for us.

Quality Assurance and Compliance Committee. Our quality assurance and compliance committee is comprised of Messrs. Roy E. Christensen and Christopher R. Christensen and Dr. Antoinette T. Hubenette. Dr. Hubenette currently serves as the chairperson of this committee. The functions of this committee include:

- promulgating, and updating from time to time as appropriate, a written corporate compliance program that substantially conforms to the Office of the Inspector General Program Guidance for Nursing Facilities, including written policies, procedures and standards of conduct, as well as disciplinary guidelines to assist officers and employees charged with direct enforcement responsibility;
- designating a corporate compliance officer, and functioning as the compliance committee to which such compliance officer reports;
- ensuring that means exist for the delivery of appropriate compliance training and education to the officers and employees of our several subsidiaries;
- establishing lines of communication for escalating compliance and quality control issues to our quality assurance and compliance committee and our Board;
- establishing a system for internal monitoring and auditing of compliance and quality control issues; and
- causing our officers to respond, as appropriate, to compliance and quality control issues and take effective corrective action.

The Company's Director Nomination Process

As indicated above, our nomination and corporate governance committee oversees the director nomination process. This committee is responsible for assisting the Board of Directors in establishing minimum qualifications for director nominees, including qualities and skills that members of our Board of Directors are expected to possess. Under our nomination and corporate governance committee charter, these criteria include, at a minimum, the candidate's personal and professional integrity, the candidate's financial literacy or other professional or business experience relevant to an understanding of the Company and its business, the candidate's demonstrated ability to think and act independently and with sound judgment, and the candidate's ability to be effective, in conjunction with other members or nominees of the Board of Directors in collectively serving the long-term interests of the Company and its stockholders. Our nomination and corporate governance committee identifies and evaluates individuals qualified to become members of our Board of Directors. Our nomination and corporate governance committee then selects, or recommends that our Board of Directors selects, the director nominees for the election at the next annual meeting of stockholders, or to fill vacancies on our Board of Directors occurring between annual meetings of the stockholders. The nomination and corporate governance committee considers all of the criteria described above in identifying and selecting nominees and in the future may establish additional minimum criteria for nominees.

General Nomination Right of All Stockholders. Our nomination and corporate governance committee will also consider nominees for the Board recommended by stockholders who meet the eligibility requirements for

submitting stockholder proposals for inclusion in the Company's next proxy statement. If an eligible stockholder wishes to recommend a nominee, he or she should submit such recommendation in writing to the chair of the nomination and corporate governance committee, care of the Secretary of the Company, by the deadline for stockholder proposals set forth in the Company's last proxy statement, specifying the following information: (a) the name and address of the nominee, (b) the name and address of the stockholder making the nomination, (c) a representation that the nominating stockholder is a stockholder of record of the Company's stock entitled to vote at the next annual meeting and intends to appear in person or by proxy at such meeting to nominate the person specified in the notice, (d) the nominee's qualifications for membership on the Board, (e) all of the information that would be required in a proxy statement soliciting proxies for the election of the nominee as a director, (f) a description of all direct or indirect arrangements or understandings between the nominating stockholder and the nominee and any other person or persons (naming such person or persons) pursuant to whose request the nomination is being made by the stockholder, (g) all other companies to which the nominee is being recommended as a nominee for director, and (h) a signed consent of the nominee to cooperate with reasonable background checks and personal interviews, and to serve as a director of the Company, if elected. All such recommendations will be brought to the attention of the nomination and corporate governance committee, and the nomination and corporate governance committee shall evaluate such director nominees in accordance with the same criteria applicable to the evaluation of all director nominees. Such information should be sent to the nomination and corporate governance committee, c/o Secretary, The Ensign Group, Inc., 27101 Puerta Real, Suite 450, Mission Viejo, California 92691. If the Board determines to nominate a stockholder-recommended candidate, then his or her name will be included on our proxy card for the applicable annual meeting of stockholders.

In addition, any stockholder may nominate one or more persons for election as a director at an annual meeting of stockholders if the stockholder complies with the notice, information and consent provisions contained in our amended and restated bylaws. In order for a stockholder's director nomination to be timely, the stockholder must deliver written notice to our secretary not later than the close of business on the 60th day, nor earlier than the 90th day, prior to the anniversary date of the immediately preceding annual meeting; provided, however, that in the event that no annual meeting was held in the previous year or the annual meeting is called for on a date that is not within 30 days of such anniversary date, notice by the stockholder must be so received no earlier than the close of business on the 90th day prior to such annual meeting and not later than the close of business on the 60th day prior to such annual meeting, or not later than the close of business on the 10th day following the date on which public disclosure of the date of the meeting was made by the corporation, whichever occurs first. Such notification must contain the written consent of each proposed nominee to serve as a director if so elected and all other information required in Section 3.02 of our amended and restated bylaws.

Director Compensation

Our Chairman of the Board currently receives an annual retainer of \$100,000, and each of our non-employee directors currently receives an annual retainer of \$30,000, \$1,500 for each Board meeting and each committee meeting the director physically attends and \$500 for each Board meeting and each committee meeting attended telephonically. Additionally, the chairperson of each of the compensation committee and the nomination and corporate governance committee receives an additional \$5,000 per year and the chairperson of each of the audit committee and the quality assurance and compliance committee receives an additional \$12,500 per year.

In addition, under the terms of our 2007 Omnibus Incentive Plan, each non-employee director who is elected to a three-year term receives an automatic option grant for 12,000 shares of common stock, with a three-year vesting schedule, on the date he or she is appointed, elected or re-elected. Directors elected to fill less than a three-year term will receive a pro rata grant that vests over their term.

Table of Contents

The following table sets forth a summary of the compensation earned by our non-employee directors in 2007. Directors who are our employees do not receive any additional compensation for their service as directors.

<u>Name</u>	<u>Fees Earned or Paid in Cash (\$)</u>	<u>Options Awards \$(1)</u>	<u>Total (\$)</u>
Antoinette T. Hubenette	60,292	—	60,292
Thomas A. Maloof	60,917	—	60,917
Charles M. Blalack	46,042	—	46,042

(1) None of our non-employee directors owned any stock options as of December 31, 2007.

Our board has also determined that it may be necessary to provide additional incentives to prospective directors in order to recruit talented leaders to serve on the board. For example, the board has determined that Mr. Nackel, if elected, should receive a grant of 12,000 options scheduled to vest over his initial three-year term, as a sign-on incentive in addition to his automatic grant of 12,000 options and other regular compensation for board service. These options will be issued at an exercise price equal to the closing price of our stock on the grant date.

Communications with Directors

Stockholders who would like to send communications to our Board may do so by submitting such communications to Gregory K. Stapley at The Ensign Group, Inc., 27101 Puerta Real, Suite 450, Mission Viejo, California 92691. We suggest, but do not require, that such submissions include the name and contact information of the stockholder making the submission and a description of the matter that is the subject of the communication. Gregory K. Stapley will then pass such information on to our Board of Directors for review.

Code of Conduct and Ethics

We have adopted a code of ethics and business conduct that applies to all employees, including employees of our subsidiaries, as well as each member of our Board of Directors. The code of ethics and business conduct is available at our website at www.ensigngroup.net under the Investor Relations section.

We intend to satisfy any disclosure requirement under Item 5.05 of Form 8-K regarding an amendment to, or waiver from, a provision of this code of ethics by posting such information on our website, at the address specified above.

Recommendation of the Board of Directors

Our Board of Directors unanimously recommends that the stockholders vote **FOR** the election of the nominees listed above.

PROPOSAL 2: APPROVAL OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We are asking the stockholders to ratify the selection of Deloitte & Touche LLP (“Deloitte”) as our independent registered public accounting firm for the year ending December 31, 2008. The affirmative vote of a majority of the common stock having voting power present in person or represented by proxy and entitled to vote will be required to ratify the selection of Deloitte.

Stockholders are not required to ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm. However, we are submitting the appointment for ratification as a matter of good corporate practice. If stockholders fail to ratify the appointment, the Audit Committee will consider whether or not to retain Deloitte & Touche LLP. Even if the appointment is ratified, the audit committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and our stockholders.

Principal Accountant Fees and Services

The following table presents fees for professional services rendered by Deloitte for the years ended December 31, 2007 and 2006 (in thousands):

	<u>2007</u>	<u>2006</u>
Audit Fees(1)	\$1,965	\$490
Audit-Related Fees	—	—
Tax Fees	—	—
All Other Fees	—	—
Total	\$1,965	\$490

(1) Audit Fees consist principally of fees for the audit of our financial statements and review of our financial statements included in our Quarterly Reports on Form 10-Q, as well as fees incurred in connection with the preparation and filing of registration statements with the Securities and Exchange Commission pursuant to our recent initial public offering (“IPO”).

Pre-Approval Policies

Our audit committee approved all audit, audit-related and tax services performed by our independent registered public accounting firm during the years presented. The audit committee has adopted an Audit and Non-Audit Services Pre-Approval Policy. This policy provides for general pre-approval for a specified range of fees for certain categories of routine services to be provided during a given calendar year. This general pre-approval is automatically renewed at the beginning of each calendar year, unless otherwise determined by the audit committee. If the cost of any proposed service exceeds the amount for which general pre-approval has been established, specific pre-approval by the audit committee is required. Specific pre-approval of services is considered at the regular meetings of the audit committee. The policy delegates authority to the Chairman of the audit committee to grant specific pre-approval between regularly scheduled audit committee meetings for audit services not to exceed \$50,000 and non-audit services not to exceed \$25,000. The policy also establishes a list of prohibited non-audit services. In making all of its pre-approval determinations, the audit committee considers, among other things, whether such services are consistent with the rules promulgated by the Securities and Exchange Commission regarding auditor independence, whether the independent auditor is best positioned to provide the most effective and efficient service, and whether the service might enhance the Company’s ability to manage and control risk or improve audit quality. These and other factors are considered as a whole and no one factor is necessarily determinative.

Audit Committee Report

Our audit committee has reviewed and discussed our audited consolidated financial statements with our management and has discussed with our independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA Professional Standards Vol. 1. AU Section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T (Communication with Audit Committees).

Our audit committee has received the written disclosures and the letter from our independent registered public accounting firm required by Independence Standards Board Standard No. 1 (adopted by the Public Company Accounting Oversight Board (PCAOB)).

Our audit committee has also considered whether the provision of non-audit services provided to us by our independent registered public accounting firm is compatible with maintaining its independence and has discussed with the auditors such auditors’ independence.

COMPENSATION DISCUSSION AND ANALYSIS

The following discussion and analysis provides information regarding our executive compensation objectives and principles, procedures, practices and decisions, and is provided to help give perspective to the numbers and narratives that follow in the tables in this section. This discussion will focus on our objectives, principles, practices and decisions with regards to the compensation of Christopher R. Christensen, Alan J. Norman, Gregory K. Stapley, David M. Sedgwick and Barry R. Port ("Named Executive Officers").

We believe that compensation paid to our executive officers should be closely aligned with our performance and the performance of each individual executive officer on both a short-term and a long-term basis, should be based upon the value each executive officer provides to our company, and should be designed to assist us in attracting and retaining the best possible executive talent, which we believe is critical to our long-term success. Because we believe that compensation should be structured to ensure that a significant portion of compensation earned by executives will be directly related to factors that directly and indirectly influence stockholder value, the "at risk" compensation of our executive officers generally constitutes a large portion of their total compensation potential. In

addition, commensurate with our belief that those of our employees who act like owners should have the opportunity to become owners, many of our executive officers have a significant level of stock ownership, which we believe aligns the incentives of the executive officers with the priorities of our stockholders. To that end, it is the view of our Board of Directors and compensation committee that the total compensation program for executive officers should consist of the following:

- Base salary;
- Annual and other short-term cash bonuses;
- Long-term incentive compensation; and
- Certain other benefits.

In establishing our executive compensation packages, the compensation committee has historically reviewed compensation packages of executives of companies in the skilled nursing industry based on publicly available information. Our compensation committee has not engaged a compensation consultant to assist it in assessing industry comparability and competitiveness of our executive compensation packages through a more formal benchmarking process, but may do so in the future.

Principal Economic Elements of Executive Compensation

Base Salary. We believe it is important to pay our executives salaries within a competitive market range in order to attract and retain highly talented executives. Although historically we have not set executive salaries based upon any particular benchmarks, we may from time to time generally review relevant market data to assist us in our compensation decision process. We have historically validated our compensation decisions by comparing the compensation of executives at other public companies in the skilled nursing industry to the compensation of our executives. Our compensation committee reviewed the published compensation of the named executive officers of Genesis HealthCare Corporation, Kindred Healthcare, Inc., Manor Care, Inc., National Healthcare Corporation, Sun Healthcare Group, Inc. and Skilled Healthcare Group, Inc. We have again employed this methodology to set compensation and incentives for our executives for 2008, although we may elect to change this practice in future years and employ a compensation consultant for this purpose. We believe that the base salaries and the total compensation of our executives are approximately equal to or less than the median base salaries and median total compensation of executives with similar positions at these companies. However, although each company had a general counsel, our review did not identify an officer of any of these companies whose roles are comparable to those of Gregory K. Stapley, who serves as our Vice President, General Counsel and Secretary. Mr. Stapley's base salary and total compensation exceed the median base salaries and median total compensation of the general counsels of these companies. However, Mr. Stapley directly oversees many aspects of our business in his role as Vice President, and we believe that he significantly contributes to our success in areas outside of his roles as our General Counsel and Secretary. Each of our executives' base salary is generally determined based upon job responsibilities, individual experience and the value the executive provides to our company. The compensation committee considered each of these factors in determining the compensation each executive would be paid in 2007. The decision, if any, to materially increase or decrease an executive's base salary in subsequent years will likely be based upon these same factors. Our compensation committee makes decisions regarding base salary at the time the executive is hired and makes decisions regarding any changes to base salary on an annual basis.

Annual Cash Bonuses. We establish an executive incentive program each year, pursuant to which certain executives may earn annual bonuses based upon our performance. In the first quarter of each year, our compensation committee identifies the plan's participants for the year and establishes an objective formula by which the amount, if

Table of Contents

any, of the plan's bonus pool will be determined. This formula is based upon annual income before provision for income taxes. Our compensation committee established the following formula for the 2007 bonus pool:

<u>Annual Income before Provision for Income Taxes ("EBT") in 2007</u>	<u>Bonus Pool</u>
For EBT up to \$25 million	EBT * 2.0%
For EBT greater than \$25 million, but less than \$37 million	\$0.5 million + (amount of EBT between \$25 million and \$37 million * 5.0%)
For EBT greater than \$37 million, but less than \$45 million	\$1.1 million + (amount of EBT between \$37 million and 45 million * 10%)
For EBT greater than \$45 million	\$1.9 million + (amount of EBT greater than \$45 million * 20%)

In the first quarter of the subsequent year, our compensation committee subjectively allocates the bonus pool among the individual executives based upon the recommendations of our Chief Executive Officer and the compensation committee's perceptions of each participating executive's contribution to both our clinical and financial performance during the preceding year, and value to the organization going forward. The financial measure that our compensation committee considers is our annual income before provision for income taxes. The clinical measures that our compensation committee considers include our success in achieving positive survey results and the extent of positive patient and resident feedback. Our compensation committee also reviews and considers feedback from other employees regarding the executive's performance. Our compensation committee exercises discretion in the allocation of the bonus pool among the individual executives and has, at times, awarded bonuses that, collectively, were less than the bonus pool resulting from the predetermined formula. For 2007, the compensation committee capped the executive bonus pool at \$2.2 million. Based upon this predetermined formula the bonus pool for 2007 was \$921,633. Bonuses for 2007 performance were allocated to the named executive officers who participated in the executive incentive program as follows: Christopher Christensen, \$310,000; Alan Norman, \$169,633; Gregory Stapley, \$310,000; and David Sedgwick, \$132,000. In addition, David Sedgwick was awarded a discretionary bonus of \$8,000 outside of this plan. Each year, our compensation committee reviews our financial performance goals and may adjust the bonus pool formula at its discretion to better align the amount available for annual executive bonuses with our objectives. Historically, the compensation committee has increased the amount of annual income before provision for income taxes that must be achieved in order to create the same bonus pool as the preceding year in order to increase the difficulty of receiving the same bonus. The allocation of this bonus pool to the participating executives remains discretionary based upon the compensation committee's determination of each participating executive's contribution to our annual performance and value to the organization going forward. The 2008 financial performance goals and bonus pool formula have been established by the compensation committee consistent with historical practices.

Long-Term Incentive Compensation. We believe that long-term performance is achieved through an ownership culture. Accordingly, we encourage long-term performance by our executives and other key personnel throughout the organization through the use of stock-based awards and, to this end our Board of Directors has in the past administered our option plans liberally in terms of frequency and number of stock option grants. We have adopted the 2001 Stock Option, Deferred Stock and Restricted Stock Plan, the 2005 Stock Incentive Plan and the 2007 Omnibus Incentive Plan. These plans permit the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, performance awards, and other stock-based awards. Historically, we have generally issued stock options. In addition, these stock options were historically exercisable for shares of restricted stock prior to the vesting of the stock option; however, we abandoned that practice with the adoption of the 2007 Omnibus Incentive Plan, although a number of our option holders still have unvested and unexercised options under our 2001 and 2005 plans which may be exercised prior to vesting. Unvested shares of restricted stock are generally subject to repurchase by us in the event the employee's employment is terminated for any reason prior to the vesting of such shares. Some of the restricted stock agreements provided for termination of our repurchase right upon the consummation of the IPO.

Although we do not have formal stock ownership guidelines, in order to preserve the linkage between the interests of executives and other key personnel and those of stockholders, we focus on granting stock options to those executives and others who do not already have a significant level of stock ownership. Although historically we have not granted stock options to Christopher Christensen or Gregory Stapley, because each of them already has a significant level of stock ownership, we may decide to do so in the future if we believe it is necessary for incentive and retention purposes. Our executives who have significant levels of stock ownership are not permitted to hedge the economic risk of such ownership. We intend to continue to provide long-term awards through the grant of stock options, which will vest based on continued employment, and we may decide to grant other awards such as stock appreciation rights, restricted stock, restricted stock units, performance awards, and other stock-based awards. Early in our history, we made a very limited number of restricted stock grants, but we have not done so since 2001 and we do not have any policies for allocating compensation to different forms of equity awards. We also do not have any policies for allocating compensation between long-term and currently paid out compensation or between cash and non-cash compensation or among different forms of non-cash compensation. In the future, our decision to allocate compensation to one form over another may be driven by considerations regarding accounting impact.

Except with respect to grants to our directors, the stock options that we grant generally vest as to 20% of the shares of common stock underlying the option on each anniversary of the grant date. In addition, these stock options generally have a maximum term of ten years. The grant date of our stock options is generally the date our Board of Directors meets to approve such stock option grants. Our Board of Directors historically has approved stock option grants at regularly scheduled meetings. Our Board of Directors and compensation committee intend to continue this practice of approving the majority of stock-based awards at regularly scheduled meetings on a quarterly basis, unless earlier approval is required for a new-hire inducement grant, regardless of whether or not our Board of Directors or compensation committee knows material non-public information on such date. The exercise price of our stock options is the fair market value of our common stock on the date of grant as determined by the closing price of our common stock on the NASDAQ Global Select Market on the date of grant. Prior to the exercise of an option, the holder has no rights as a stockholder with respect to the shares of common stock underlying the option, including voting rights and the right to receive dividends or dividend equivalents.

Because of his large equity stake, we have never granted stock options to our President and Chief Executive Officer, Christopher Christensen. Mr. Christopher Christensen historically has made recommendations to our Board of Directors regarding the amount of stock options and other compensation to grant to our other executives based upon his assessment of their performance, and may continue to do so in the future. Our executive officers, however, do not have any role in determining the timing of our stock option grants.

Although we do not have any formal policy for determining the amount of stock options or the timing of our stock option grants, we have historically granted stock options or restricted stock to high-performing employees (i) in recognition of their individual achievements and contributions to our company, and (ii) in anticipation of their future service and achievements.

Other Compensation. Our executives are eligible to receive the same benefits that are available to all employees. In addition, we pay the premiums to provide life insurance equal to each executive's annual salary and the premiums to provide accidental death and dismemberment insurance. For 2007, Christopher Christensen received an automobile allowance of \$15,900 and David Sedgwick received an automobile allowance of \$7,200.

Principal Economic Elements of Compensation for Presidents of Our Five Portfolio Companies

Base Salary. We believe that while it is important for us to compensate the presidents of our portfolio companies competitively, we can encourage faster and more meaningful personal growth in these key leaders and better performance in their separate companies by keeping base salaries relatively low, while offering these executives a more entrepreneurial and professionally motivating experience through significant cash and stock incentives. The level of each president's base salary is generally determined based upon our performance, the president's performance, the respective portfolio company's overall performance, and considerations such as the cost of living in the markets they serve, among other things. Our management exercises discretion in deciding how to reflect these items in setting base salary. Material increases or decreases in a president's base salary are based upon these same factors, with decisions regarding any changes to base salary generally made on an annual basis.

Short-Term Cash Bonuses. Presidents of our portfolio companies may earn cash bonuses by meeting target clinical and financial measurements for their respective portfolio companies. They are eligible to earn short-term cash bonuses, the amount of which is established pursuant to a formula based upon their respective portfolio company's income before provision for income taxes. The amount of these bonuses increases for each tier of the target milestones, and such bonuses are not subject to a cap. Each year the formula is adjusted, so it becomes increasingly more difficult for presidents to earn the same bonus each year. The bonuses are determined based upon management's perception of each president's contribution to the achievement of clinical and financial objectives during the preceding year at their portfolio company, and the value to the portfolio company going forward. The financial objective that we consider is the president's contribution to his portfolio company's annual income before provision for income taxes. The clinical measures that management considers include factors such as the president's contribution to achieving positive survey results, and positive patient and resident feedback. Management also reviews and considers feedback from other employees regarding the president's performance. Although these bonuses historically have been earned on a quarterly basis, beginning in 2007 we transitioned to an annual bonus structure for these presidents. Management has also elected to recognize the efforts of outstanding performers in the group with supplemental cash bonuses where merited, and these bonuses are discretionary. For their performance during the 2007 fiscal year, we paid the five presidents of our five principal portfolio companies an aggregate of approximately \$0.4 million in cash bonuses.

Long-Term Incentive Compensation. Two of the main objectives of placing presidents over separate portfolio companies were to enhance our ownership culture and to preserve and extend the entrepreneurial spirit that we believe has been crucial to our success to date. We encourage long-term performance by our presidents through the use of stock-based awards, and our board of directors has made significant stock option grants to these presidents. Each of the stock options issued pursuant to our 2001 and 2005 plans may be exercised for shares of restricted stock prior to the vesting of the stock option. With some exceptions (such as in the event of death or disability), such shares of restricted stock are subject to repurchase by us in the event the president's employment is terminated for any reason prior to the vesting of such shares. Each of these stock options has a maximum term of ten years, and vests as to 20% of the shares of common stock underlying the option grant on each anniversary of the grant date, with an exercise price generally equal to the fair market value of our common stock as determined on the date of the grant. Some of the restricted stock agreements provided for termination of our repurchase right upon the consummation of the IPO.

Other Compensation. Our presidents are eligible to receive the same benefits that are available to all employees. With the exception of a small car allowance currently provided to three of our presidents and the payment of the car lease payments for two of our presidents, we do not have programs for providing perquisites or other personal benefits to presidents other than what is provided to a broad range of employees. For 2007, Barry Port received an automobile allowance of \$11,000.

For a description of the compensation paid to Christopher Christensen, See "Principal Economic Elements of Executive Compensation" above. Christopher Christensen did not receive additional compensation for his temporary service as president of our subsidiary, The Flagstone Group, Inc., which serves portions of Southern California.

Principal Economic Elements of Compensation for our Executive Directors

We structure our executive director compensation program to reward our executive directors for our successful performance and each individual's contribution to that performance. Executive director compensation generally consists of a base salary, short-term cash bonuses and long-term equity incentive compensation. Generally, our executive directors are not considered executive officers. However, a portion of David Sedgwick's compensation for 2006 was earned by him while serving as an executive director.

Base Salary. Executive directors receive base salary for performing all of their leadership duties, which include managing one of our facilities and contributing to the overall mission of the organization. The amount of base salary is generally based upon individual experience and past performance as well as general market conditions. Base salary may be increased for executive directors who, among other things, achieve and continue to maintain certain clinical results, leadership performance or expertise.

Short-Term Cash Bonuses. Portfolio company presidents work with executive directors to establish the target bonus payments for the executive director, based on the individual performance potential of the executive director's facility. In addition, they have discretion to modify or negate any bonuses that might have otherwise been earned in connection with the executive director's or facility's failure to substantially comply with applicable laws, regulations or clinical standards.

Other Compensation. Executive directors are eligible to receive the same benefits that are available to all employees. In addition, they are eligible to receive discretionary stock-based compensation and incentives under our 2007 Omnibus Incentive Plan, as described above. They are also eligible to receive discretionary cash bonuses as determined from time to time by their portfolio company president and/or the executive officers of the Company. For 2007, no named executive officers participated in the incentive plan for executive directors.

Principal Elements of Director Compensation

We do not compensate our directors other than for their service on our board of directors or its committees. Historically, we have compensated our non-employee board members based upon what we considered to be fair compensation without considering compensation paid by other companies. Compensation for board and committee service is now partially based upon relevant market data that we obtain by reviewing director compensation by public companies in the skilled nursing industry. To establish board compensation for 2007, our compensation committee reviewed the published director compensation information of other skilled nursing companies, including Genesis HealthCare Corporation, Kindred Healthcare, Inc., Manor Care, Inc., National Healthcare Corporation, Sun Healthcare Group, Inc. and Skilled Healthcare Group, Inc. Based on these reviews, the Committee set its annual retainers for outside directors and the chairman of the board, payments for board and committee meeting attendance, and retainers to the chairpersons of each committee at levels that we believe are approximately equal to or less than the median cash compensation paid to directors of these companies, except that we believe that (i) the cash compensation payable to the chairperson of our audit committee is more than the median compensation paid to audit committee chairpersons of these other companies, and (ii) the cash compensation payable to the chairman of our board is approximately equal to or less than the median cash compensation paid to the chairpersons of the boards of directors of these other companies who receive compensation for their role as chairpersons of the board and who are not also serving as the chief executive officers of such companies. We have again employed this methodology to set compensation for our non-employee directors for 2008, although we may elect to change this practice in future years and employ a compensation consultant for this purpose.

Our 2007 Omnibus Incentive Plan contains an automatic option grant program for our directors. Pursuant to the automatic option grant program, non-employee directors will each receive an option to purchase 12,000 shares of common stock at the beginning of their three-year terms, with a three-year vesting schedule. Directors elected to fill less than a three-year term will receive a pro rata grant that vests over their term. Our board of directors and compensation committee considered the total compensation paid to directors of the companies named above in deciding to award these automatic option grants. However, our board of directors and compensation committee determined the amount of options to award based upon what they considered to be an appropriate incentive for board service to our company, and they did not attempt to base this number upon the number of options awarded to directors of these other companies. Although we generally do not intend to make any discretionary stock option grants to our directors, our board has also determined that occasionally it may be necessary to provide additional incentives to directors, including in order to recruit talented leaders to serve on the board. For example, the board has determined that Mr. Nackel, if elected, should receive a grant of 12,000 options scheduled to vest over his initial three-year term, as a sign-on incentive in addition to his automatic grant of 12,000 options and other regular compensation for board service. These options will be issued at an exercise price equal to the closing price of our stock on the grant date.

Accounting and Tax Treatment of Compensation

Internal Revenue Code Section 162(m) limits the amount that we may deduct for compensation paid to our principal executive officer and to each of our three most highly compensated officers (other than our principal financial officer) to \$1.0 million per person, unless certain exemption requirements are met. Exemptions to this deductibility limit may be made for various forms of performance-based compensation. In the past, annual cash

compensation to our executive officers has not exceeded \$1.0 million per person, so the compensation has been deductible. In addition to salary and bonus compensation, upon the exercise of stock options that are not treated as incentive stock options, the excess of the current market price over the option price, or option spread, is treated as compensation and accordingly, in any year, such exercise may cause an officer's total compensation to exceed \$1.0 million. Under certain regulations, option spread compensation from options that meet certain requirements will not be subject to the \$1.0 million cap on deductibility. While the compensation committee cannot predict how the deductibility limit may impact our compensation program in future years, the compensation committee intends to maintain an approach to executive compensation that strongly links pay to performance.

COMPENSATION COMMITTEE REPORT

Our compensation committee has reviewed the foregoing Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K and discussed the Compensation Discussion and Analysis with our management. Based on such review and discussions with management, the compensation committee recommended to our Board that the foregoing Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference into our Annual Report on Form 10-K for the fiscal year ended December 31, 2007.

Presidents of our portfolio companies may earn cash bonuses for their respective subsidiaries meeting target clinical standards and financial milestones pursuant to a predetermined formula based upon their respective subsidiaries' income before provision for income taxes. This bonus program does not provide for threshold or maximum payout amounts. The amount reported in the target performance column is derived by inputting the results of the applicable subsidiary from fiscal 2006 into the formula used in 2007 and computing what the payout would be in 2007 if such subsidiary had the same results in 2007 that it had in 2006. This amount may or may not be indicative of the probable result for 2007. The actual bonus amount earned by Barry Port in 2007 is shown in the "Summary Compensation Table" above.

We expect our audit committee will review potential conflict of interest situations, on an ongoing basis, any future proposed transaction, or series of transactions, with related persons, and either approve or disapprove each reviewed transaction or series of related transactions with related persons.

On August 14, 2007, we adopted a written policy and procedures with respect to related person transactions, which includes specific provisions for the approval of related person transactions. Pursuant to this policy, related person transactions include a transaction, arrangement or relationship or series of similar transactions, arrangements or relationships, in which we and certain enumerated related persons participate, the amount involved exceeds \$120,000 and the related person has a direct or indirect material interest.

In the event that a related person transaction is identified, such transaction must be reviewed and approved or ratified by our audit committee. If it is impracticable for our audit committee to review such transaction, pursuant to the policy, the transaction will be reviewed by the chair of our audit committee, whereupon the chair of our audit committee will report to the audit committee the approval or disapproval of such transaction.

In reviewing and approving related person transactions, pursuant to the policy, the audit committee, or its chair, shall consider all information that the audit committee, or its chair, believes to be relevant and important to a review of the transaction and shall approve only those related person transactions that are determined to be in, or not inconsistent with, our best interests and that of our stockholders, taking into account all available relevant facts and circumstances available to the audit committee or its chair. Pursuant to the policy, these facts and circumstances will typically include, but not be limited to, the benefits of the transaction to us; the impact on a director’s independence in the event the related person is a director, an immediate family member of a director or an entity in which a director is a partner, stockholder or executive officer; the availability of other sources for comparable products or services; the terms of the transaction; and the terms of comparable transactions that would be available to unrelated third parties or to employees generally. Pursuant to the policy, no member of the audit committee shall participate in any review, consideration or approval of any related person transaction with respect to which the member or any of his or her immediate family members is the related person.

STOCKHOLDER PROPOSALS

Stockholders may present proposals for action at a future meeting only if they comply with the requirements of the proxy rules established by the Securities and Exchange Commission (“SEC”) and our amended and restated bylaws. Stockholder proposals that are intended to be presented at our 2009 Annual Meeting of Stockholders (the “2009 Annual Meeting”) and included in the proxy statement, form of proxy and other proxy solicitation materials related to that meeting must be received by us not later than January 6, 2009, which is 120 calendar days prior to the anniversary date of the mailing of this Proxy Statement. Stockholders are also advised to review our amended and restated bylaws, which contain additional advance notice requirements, including requirements with respect to advance notice of stockholder proposals and director nominations. Under our current amended and restated bylaws, the deadline for submitting a stockholder proposal or a nomination for director is not later than the close of business on the 60th day, nor earlier than the 90th day, prior to the anniversary date of the immediately preceding annual meeting; provided, however, that in the event that no annual meeting was held in the previous year or the annual meeting is called for a date that is not within 30 days before or after such anniversary date, notice by the stockholder to be timely must be so received no earlier than the close of business on the 90th day prior to such annual meeting

and not later than the close of business on the 60th day prior to such annual meeting, or not later than the close of business on the 10th day following the date on which we publicly disclose the date of the meeting, whichever occurs first.

Stockholder proposals must be in writing and should be addressed to our corporate Secretary, at our principal executive offices at 27101 Puerta Real, Suite 450, Mission Viejo, California 92691. It is recommended that stockholders submitting proposals direct them to our corporate Secretary and utilize certified mail, return receipt requested in order to provide proof of timely receipt. The Chairman of the Annual Meeting reserves the right to reject, rule out of order, or take other appropriate action with respect to any proposal that does not comply with these and other applicable requirements, including conditions set forth in our amended and restated bylaws and conditions established by the SEC.
